Don't press this button, like, ever.

A : Machine Gun Trigger
Triggers the synth in 16th notes at the chosen BPM

Plus, Minus, Home : Preset Control

Home toggles between "play" and "store" modes. When in "store" mode, use Plus and Minus to choose a number where the current patch will be stored. Press "Home" again to store.

In "play" mode, Plus and Minus choose a preset.

1 : Turn the pitch envelope on and off

2 : Randomize!!

B : Trigger the synth, when "B-Button" trigger mode is selected (using the Up button)
